Subject: Draft induced seismicity report - path forward
Attachments: Summary of report comments sent to WG 9-26-13.xlsx

Greetings to all,

It's been some time since the Working Group of the UIC National Technical Workgroup has been involved with the draft induced seismicity report. You received and commented on a draft copy of the report that was sent to the expert panel late last year. We've received the green light to make changes to the report based on the comments received and proceed forward with the full Working Group involved in the process. The goal is to have the final draft to the NTW for review and vote for approval by late November or early December so that the report can be submitted to HQ prior to December 31.

Region 6 working group members consolidated the comments received on the 2012 draft report into a matrix that is attached for your review. Many comments received indicate the report lacked clarification on the intent and purpose. We also received several comments related to the decision model. During this interim period pending direction for HQ, R6 members have updated some appendices and incorporated some of the basic comments received.

A conference call will be held Monday, September 30 at 2:00 pm CDT to discuss our path forward.

Conference call in number is 866-299-3188

Conference code is 2146657198

You can download a copy of the 2012 draft report sent for review and comment at the following FTP website: <ftp://scienceftp.epa.gov/>

FTP site instructions:

Enter the password multiple times during the process to get to the correct page. On your browser window, click 'Page' 'Open FTP Site in Windows Explorer'. In the Explorer window you can drag and drop the files onto your computer. The complete pdf document is the 25 MB file. The other files are smaller sections of the report if you have issues with file size. **Please close your Explorer window and FTP site when through and do not delete any of the files.**

Collaborator's login id: uicntw

Collaborator's password: sE2blhnI

I look forward to your participation and completion of the report.

Thanks,
Susie
